CONTENTS

Physics, biophysics and ecology of soils

Day dynamics of carbon dioxide emission from soil in Shuvakovsky forest area, St. Petersburg, in late autumn
Arkhipenko I. A., Kapitsa E. A., Gorshkov V. V., Khomyakov Yu. V., Vertebny V. E. 1

Comparative study of oil-destructor biological products efficiency for cleaning oil-contaminated soils in extreme conditions
Bakina L. G., Chugunova M. V., Gerasimov A. O., Polyak Yu. M., Yakkonen K. L., Mayachkina N. V., Gorbunova E. A. 9

Physical, physiological and genetic basis for biological production of soil-plant complexes under natural and controlled conditions

Modeling dynamics of wheat brown and yellow rust development in the Northwestern region of Russian Federation
Kolesnikov L. E., Pavlyushin V. A., Arkhipov M. V., Kolesnikova Yu. R., Solodyannikov M. D., Shevtsov M. V. 18

Comparative analysis of biochemical composition of the vir wild and cultivated *Hypericum Perforatum* L. accessions
Kurina A. B., Aslanova A. A., Solovyeva A. E. 30

Adaptation capacity, productivity and quality of dwarf tomato forms in different types of cultivation systems
Udalova O. R., Balashova I. T., Mirskaya G. V., Kononchuk P. Yu., Anikina L. M., Panova G. G. 38

Precision agriculture – crop production based on information technologies

Influence of weed contamination and nitrogen nutrition on spectral reflective properties and yield of spring wheat
Shpanev A. M., Rusakov D.V. 49

Physico-agronomical basis for management of crop production processes, amelioration and soil protection

Improvement of grain sorghum cultivation technology in conditions of arid zone
Volters I. A., Bagrintseva N. A., Vlasova O. I., Trubacheva L. V., Poltavskikh E. A. 60

Method for optimizing soil water regime in planting pits for growing tree species without irrigation in semi-desert conditions
Gasanov G. N., Usmanov R. Z., Gadzhiev K. M., Asvarova T. A., Bashirov R. R., Abdullayeva A. S., Salikhov Sh. K. 66

Salt composition dynamics of dark chestnut soil irrigated with mineralized artesian waters in Steppe Crimea
Klimenko O. E., Podovalova S. V., Dzhaparova A. M. 73
