

THE PAPER PROCESSING BY THE EDITORIAL BOARD OF THE “AGROPHYSICA” JOURNAL

1. The manuscripts sent for publication in “Agrophysica” journal should be presented according to the “Guide for authors”;
2. The subjects of manuscripts should be in the area of the scientific scope of the “Agrophysica” journal;
3. All the received manuscripts are being sent to reviewers from the Editorial board of the journal or to the other leading researchers recommended by the board members;
4. The reviewers fill in the special “Reviewer form”, provided by the editorial board of the journal and sent it back with the decision about the manuscript publication;
5. All the recommendations of reviewers are sent to the authors for the manuscript revision (as many times as necessary). A letter with the authors’ comments and the revised manuscripts are accepted by the board and processed according to the original reviewer recommendations.
6. The Russian and English language of all the manuscripts, accepted for publication in the journal, are being reviewed and improved if necessary.
7. If a manuscript is not suitable for publication a detailed letter with explanations is being sent to the authors.
